

WHAT OUR CUSTOMERS SAY

'We selected Gyrosoft as our partner as they understood our requirements and our corporate, technical and commercial objectives. I would have no hesitation in recommending the combination of Gyrosoft and Microsoft Dynamics GP to other users, irrespective of sector or industry'
Amnesty International

'We selected Gyrosoft to support our Microsoft Dynamics GP system over three years ago. In that time they have consistently provided an excellent level of professional service and fully understand our requirements as a non-profit organisation'
Salvation Army

GYROSOFT, AN IT SOLUTIONS PARTNER THAT WORKS FOR YOUR BUSINESS

In a corporate world where time and, more importantly money, is precious, it is essential that finding a solution to a problem is both fast and simple.

Business management software, such as enterprise resource planning (ERP), Procurement to Pay (P2P) and customer relationship management (CRM) is vital for any company looking to thrive in today's turbulent markets.

For any organisation seeking to increase efficiency, enhance sales success, deliver superior customer service and control business costs, their answer comes in the form of a partnership with award-winning Gyrosoft.

Delivering three world class products - Microsoft Dynamics GP, Microsoft Dynamics CRM and Compeat Procurement to Pay - Gyrosoft ensures each are serviced by experienced staff specialising in each respective solution.

Gyrosoft caters for a range of industries from healthcare to IT services. As specialists in Not for Profit organisations, their many established clients include charities such as Amnesty International and the Salvation Army.

Through project planning, system architecture, document design, application implementation, training and full after installation helpdesk support, customers can be assured of a 'one stop shop' for all their business software needs.

With over 3,000 users within 200 sites, their philosophy to develop and maintain long term relationships is driven by their hands-on approach from Application consultant to Director level.

With the launch of their new office in Hull, these are exciting times for Gyrosoft.

Di Hudson, CEO of Gyrosoft, said: 'we have wanted to expand our services to the North for some time.'

'The team is now in a strong position to welcome new customers in the North who feel they have outgrown their current business software.'

Peter Sharp, who has worked within the Microsoft Dynamics channel for over 12 years and possesses a wealth of business software knowledge, will be running the Northern Office.
